EXAMINER'S COMMENT

1. In view of the allowance of the generic claim 1, previously withdrawn dependent claim 8 is now allowable.
2. The drawings filed on February 7, 2001 are accepted by the Examiner.

REASONS FOR ALLOWANCE

3. Claims 1, 6-8, and 28-36 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Carton et al. (US 3,666,288) discloses a pneumatic spring 24 comprising a pressure tube, a rod guide assembly, an end cap, a sealed working chamber filled with a pressurized gas, a solid piston rod, a piston 40 diving the working chamber into an upper and lower working chambers, a valve body with a second flow path 52. However Carton et al. fail to disclose a damper and also a compression and an extension valve assemblies on the piston.

The aforementioned limitations and the arrangements thereof are not taught in the prior art. In light of the foregoing, the claims of present application are found to be patentable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
